

Products' detailed information sheet

Product Name	UcyL2B-A	
Product Code	UDUD076330	
Materials		
Body & Base	Aluminum	
Pot	Aluminum	
Coating		
Body & Base	Are anodized and then powder coated with electrostatic paint. The combination makes them rust and corrosion proof.	
Pot	Pot is anodized and then powder coated with electrostatic paint. The combination makes the pot rust and corrosion proof.	
Colors available		
Body	Matt black	
Base	Matt black, Half shiny gold	
Pot	Black	
Features	<ol style="list-style-type: none"> 1. Automated irrigation: The body acts as a water reservoir, holding up to 3 liters of water. The planter is equipped with a digital timer, by which irrigations intervals are set. According to intervals, electric pump is activated, pumping water from the tank on to the top of soil. 2. Illuminated: Decorative SMD lighting hidden beneath the body, over the base. 3. The electric pump and illumination is 12V/ DC. Product is safe and there is no risk of electrocution. 4. Pot is separate and can be easily mount/ unmount for planting and maintenance 5. Modular design: Body and base can be mount and attached/ detached, accommodating combined assemblies and colors.
